| 10      | Searching and Sorting Techniques |

## ***Classroom Lecture Topics / Online Reading Topics***

Review the glossary terms of the above chapter(s).

## ***Due Dates***

Please observe the posted due dates of the homework and laboratory assignments.

## ***Announcements***

Welcome to a new week. This week, your tasks will be as follows:

- Review the overall course policies and procedures, such as completing and submitting course assignments, as stated in the syllabus and in the "Welcome" document, both of which are posted online.
- Observe the homework and computer laboratory assignment due dates that also are listed in the "Due Dates" document, posted on the course Web site.
- For each homework assignment that you complete, use the accompanying MS Excel answer sheet to enter your answers for the assignment or complete the given MS Word document and then email the file for credit to: [papademas@aol.com](mailto:papademas@aol.com)
- This week your reading assignment concerns the topic of "Searching and Sorting Techniques".
